

BACK HOME

The road is calling my name and I'm hitting that babe,
The sun is behind my bike and I'm coming to you.
I can't wait to see tomorrow 'cause we'll be ready,
Six dollars is all I got for me and you.
There's nothing new.

Yeah baby, I'm hitting the road.

As I'm gone, I will be back to you and soon,
I will do the things that you just wanted me to do.
As we were, we are gonna be together in our bedroom:
Sex, tobacco, and some good wine for you.

I'm hitting the road

I got my nine in my pocket and nobody can try to stop me
And I'm looking to the motherfuckin' sunrise,
This is the way that I could wanna die,
I'm not afraid to die if I got you by my side.

You know what I mean when I say that you're mine,
like a soldier has his mine.
I'd die for you, I'd die for you, again, again, again.

As I'm gone, I will be back to you and soon,
I will do the things that you just wanted me to do.
As we were, we are gonna be together in our bedroom:
Sex, tobacco, and some good wine for you.

I'm hitting the road, I'm hitting the road babe,
I'm hitting the road and no one can take what is mine.
I'm hitting the road, I'm hitting the road babe,
I'm hitting the road and no one can take what is mine.

GOD KNOWS

I've never needed your help babe.
I've never learned the lessons, ain't it?
I know that I am gonna pay the bill.

D'you know what kind of pills I'm taking?
You know that my poor heart's yet taken.
Everything you see's gonna have an end.

"Look out the window, honey,
Lock out the monsters in your head"

I met God and he said to me:
"You won't find forgiveness inside your head"
I don't want you to lose your mind for it,
Don't trust in those lies as you can.

I know that I will never get to heaven,
It's crazy as you compare faith to fate.
A "face to face" won't be so easy.

Don't pretend that you believe me,
I cannot pretend to feel it.
I'm gonna wait for Him, as long as I can.

"Look out the window, honey,
Lock out the monsters in your head"

I met God and he said to me:
"You won't find forgiveness inside your head"
I don't want you to lose your mind for it,
Don't trust in those lies as you can.

ROVERS

We're on the highway, desert and valley,
We see the lighting sign.
I pull the brake, I lost the way,
I drift on the dirt and say:

"I need a hour, let's have a break,
you're gonna be my alibi."

I cannot hold it, let's get naked,
I wanna rest my head.
I'm gonna hold ya, I will have ya,
you're gonna be my slave.

"I need a hour, let's have a break,
you're gonna be my alibi."
"I need a hour, let's have a break,
you're gonna be my alibi."

I want to break free, please don't blame it on me,
I'm not what you think and I can't do anything for you.
I want to break free, please don't blame it on me,
I'm not what you think.

"I need a hour, let's have a break,
you're gonna be my alibi."
"I need a hour, let's have a break,
you're gonna be my alibi."

EASY

Another day's arrived and I'm faking lots of smiles.
And you know, I'm full of your shit.

Always bittersweet memories,
does it seem right to you?, tell me, bitch.

I'm trying to telling you why, we're not the same.

If you calm down and shut up your fuckin' mouth,
You could hear what's around you.
Have you ever thought that the most important song is the noise around you?
If you try to listen, it's inside of you.

Easy come easy go, it's life.
We had fun baby, stay tonight.
Easy come easy go, it's life.
We had fun baby, please stay tonight.

A whole life wouldn't be enough to erase those beautiful days.
I cannot believe that you aren't strong enough to stop and change.
I'm trying to telling you why we were the same.

You're living your life like you were someone else. But who are you now?
Try to be yourself instead of someone else and you'll know how to swing!
I'm trying to telling you why we're not the same.

Easy come easy go, it's life.
We had fun baby, stay tonight.
Easy come easy, it's life.
We had fun baby, please stay tonight.

As you can see now, if you try to turn around, you are not trying anymore.
Don't give up and listen to me baby 'cause I've been here before.
if you close your eyes, you'll see it right.

I will give you nothing,
Nothing, I won't no!

Easy come easy go, it's life.
We had fun baby, stay tonight.
Easy come easy, it's life.
We had fun baby, please stay tonight.

SEPARATED

Everyday I look at you in the mirror,
Everyday I try to draw a perfect line.
Everyday I try to change a little,
Everyday I wonder why this life is mine.

If you run away I'll try to survive.

I know it's what you needed,
I know it's what you wanted.
I know that we can't be separated.
Separated again.

Everyday I try to be a hero,
Everyday I try to fly across the sky.
Everyday I try to shine a little,
Everyday I wonder why this life is mine.

If you run away I'll try to survive.

I know it's what you needed,
I know it's what you wanted.
I know that we can't be separated.
I know it's what you needed,
I know it's what you wanted.
I know that we can't be separated.
Separated again.

BEHIND

I know that we had some troubles,
But I know that I'll keep holding your hand.
You know that I always left myself aside for you,
But you know that I'll keep missing you.

Please don't hate me, please don't hate me anymore.

I won't try to make it easy,
I won't try to keep you here.
I won't try to make it easy,
I won't try to keep you here.
We know it's time to go, this time.

I know that you're gone and I'm going crazy,
But I know, you're going to find your way.
You know that I'll never find my place into this world,
But you know that I'll keep moving on.

Please don't hate me, please don't hate me.

I won't try to make it easy,
I won't try to keep you here.
I won't try to make it easy,
I won't try to keep you here.

I won't try to make it easy,
I won't try to keep you here.
I won't try to make it easy,
I won't try to keep you here.
We know it's time to go, this time

HAVE A GREAT FLIGHT

Every “why” passed away now,
It’s time to take a little break.
It’s time to give up.

Everywhere you are now,
It’s time to take a little breath.
It’s time to wake up.

Have a great flight,
I cannot be there with you.
Have a great flight,
I’m going to see you again.

Every night I look to the stars,
They shine the way that you did.
They’re bright into the sky.

Every time I’ll fall to the floor,
I know you will laugh at me.
You’re bright in my mind.

Have a great flight,
I cannot be there with you.
Have a great flight,
I’m going to see you again.

I’ll miss you here, I’ll need you near.

I will reach the stars,
I will brake the bounds.
I ain’t gonna quit,
I will find a way to resolve our problems.

HALF-BLOOD SON

Is it worth it? Is it worth it?
I should know that everything disappears in the end.
Is it worth it? Is it worth it?
I should know that my time here is not enough.

Oh, hold your breath.

Is this real life? I know it's not mine!
This is the last time, my tears are dry.
I know, I know, I know, I know that I am a half-blood son.

Is it worth it? Is it worth it?
I won't stop running 'till the horizon seems so near that I can see it.
Is it worth it? Is it worth it?
My bike is yet so hot and the road is bleeding oil.

Oh, half-blood son.

Is this real life? I know it's not mine!
This is the last time, my tears are dry.
I know, I know, I know, I know that I am a half-blood son.

What I went through? This is the last time, my tears are dry.
What I went through?

THE JOURNEY

I'm getting to a distant light,
And no one can stop my ride.

I'm driving in this crazy night,
I'm leaving the world behind.

I'm sorry but it's not for everybody,
You're really good to judge but then you're running out of time.

You know, this is a ride.
We're gonna make it right.
We have to take a flight.
To paradise.

This city is a good place to start,
Having fun in Huntington beach.
I finished all my dollars so I'll go to Las Vegas.

I told you that it's not for everybody,
being good at talking is another story.
You're running out of time.

You know, this is a ride.
We're gonna make it right.
We have to take a flight.
To paradise.

'cause a hundred million times they told me "no".
But boy if you have a dream don't let it go!
I have seen so many fail but trying,
It's all about play your cards right.

The journey is just began,
The journey is just began.
Take my hand and come with us, leave your memories.
Take my hand and come with us, You won't need'em 'cause:

You know, this is a ride.
We're gonna make it right.
We have to take a flight.
To paradise.

'cause a hundred million times they told me "no".
But boy if you have a dream don't let it go!
I have seen so many fail but trying,
It's all about play your cards right.

For every single time they told you "no".
For every single dream you're letting go.
Don't stop in front of fails, you have to get to paradise.
